Goulburn Dispatchable Community Solar Farm

Community Energy for Goulburn and the newly formed Goulburn Community Energy Cooperative are working with Komo Energy to develop the Goulburn Dispatchable Community Solar Farm. Community Energy for Goulburn, Goulburn Community Energy Cooperative and Komo Energy are committed to giving local businesses, contractors and suppliers an opportunity to deliver or participate in the delivery of the Goulburn Dispatchable Community Solar Farm.

The Goulburn Dispatchable Community Solar Farm will be an approx. 1,200 kW AC solar farm with a 400 kW battery located at Bridge St, Goulburn (NSW).

Komo Energy will shortly issue a Request for Proposals to suitable qualified contractors for the design and construction of the Goulburn Dispatchable Community Solar Farm. This expression of interest will help identify suitable contractors that might wish to participate in the Request for Proposals process. It will also identify contractors and suppliers that may wish to be considered for subcontracting opportunities.

This project is supported by funding from the NSW Government. Community Energy for Goulburn Inc. acknowledges the funding support from the NSW Government under the Regional Community Energy Fund.

THE OPPORTUNITIES

We are seeking expressions of interest for the following activities:

1. FULL-SCOPE DESIGN AND CONSTRUCTION

Interested parties are invited to express their interest for the full-scope design and construction of the Goulburn Dispatchable Community Solar Farm. Suitably qualified parties will be issued with the Request for Proposals in due course.

2. SUBCONTRACTING OPPORTUNITIES

Interested parties are invited to express their interest for subcontracting opportunities. Details will be passed on to prospective head contractors as part of the Request for Proposal package.

- (a) engineering
- (b) geotech

- (c) civil works (drive-way upgrade, trenching, site preparation)
- (d) fencing works
- (e) transport & logistics
